

Dear RPS(LS),

I am glad to inform you that the Hong Kong Map Service 2.0 ("HKMS 2.0") (<https://www.hkmapservice.gov.hk/OneStopSystem/home>) has been in live-production since **27 August 2018 (Mon)**.

HKMS 2.0 is a one-stop sale and supply system for survey and map products. It is the revamped and enhanced version of Hong Kong Map Service - a website for ordering and downloading digital map products, paper map products and cadastral survey records. Apart from improving the service efficiency and user-friendliness on provision of map products, HKMS 2.0 introduces provision of digital copies of cadastral survey records, such as D.D. Sheet, land boundary plans, survey record plans, computation folders etc., which can be purchased and downloaded by registered customers using their computers in offices or at home, or even via their mobile devices.

After the launch of HKMS 2.0, there will be no major changes in the range of products and Map Sales Counter services except that the existing GIRS2 (Public Version), the GIRS2 (Counter Version) and the Map Search Kiosk will all be enhanced by being integrated into the HKMS 2.0 Internet website.

Briefing Session

You and your authorized employees are cordially invited to join the briefing session to know more about HKMS 2.0 and how the new website can help your business. Please complete the Reply Slip enclosed below for you and your authorized employees and forward it by email to lslic2@landsd.gov.hk or fax to 2877 8520 on or before **3 September 2018** for registration.
